

Column Fridges and Freezers by Fisher & Paykel

Fisher & Paykel's Integrated Column Refrigerators and Freezers provide a high level of personalization to suit any lifestyle. The modular vertical fridges and freezers can be fully integrated into cabinetry or fitted with optional stainless steel door panels, and can be installed either side by side or individually.

At the core of the range is Fisher & Paykel's state-of-the-art food care technology, including the Variable Temperature Zone system, which ensures food is stored at its optimal temperature to stay fresher longer, and ActiveSmart™ Foodcare technology, which adjusts airflow to maintain a stable and even internal temperature. fisherpaykel.com/au

Modular vertical refrigerators and freezers from Fisher & Paykel can be completely integrated into cabinetry for a flush look.

Evolution food waste disposers by InSinkErator

▲ InSinkErator's Evolution Series provides for a more hygienic and convenient approach to food waste management.

InSinkErator's Evolution Series food waste disposers offer a quick and easy way to dispose of food waste. Food scraps are conveniently deposited down the sink, ground into fine particles and flushed safely into the sewerage system.

The most powerful model in the range is the Evolution 200, which features three-stage grind technology and ultra-quiet operation. Along with the Evolution 100, which features two-stage grind technology, it can grind virtually any food waste, including difficult items such as bones. Evolution disposers are all quiet, cheap to run and, unlike a bin, never need emptying. insinkerator.com.au
