

PRODUCT REVIEW

Great ideas and
inspiring solutions

1/ CONCRETE FOR THE WIN

Concrete Resurfacing Systems offers a variety of services to help both residential and commercial clients. Whether you require protective epoxy flooring, polished concrete or designer concrete overlays, it provides concrete treatment services to achieve the finished look and function you want and need for a particular project. Some of the services include concrete grinding and concrete floor preparation, protective and industrial epoxy flooring, decorative concrete toppings and polished concrete flooring. With more than 15 years' experience in the industry, the company sources products from around the world to ensure the best systems and products are available to discerning homeowners. The showroom is in Melbourne. polishedconcretemelbourne.com.au

2/ SIT PRETTY

There is one thing we can all agree on when it comes to chairs: comfort is key. So when we discover a chair that is both chic and plush, we can't wait to sit back and relax. The Kroken chair is characterised by a hammock-like construction with reclined seating position and adjustable headrest. A matching footstool is available, allowing for absolute comfort. The Kroken chair is offered in a variety of fabric and grades of leather, as well as a range of colours. danishred.com.au

3/ PERSIAN IS BEST

Every living room needs a rug, but the best living rooms deserve something better: a beautiful handmade Persian rug, one that offers not just texture and colour, but also a sense of luxury. From the moment you wake up, the sight of the genuine Persian Afghan Chobi 100-per-cent wool rug will put a spring in your step. Coloured with 100-per-cent vegetable dyes, the rug is valued for its already antique look, at home in both modern and traditional spaces. It's proof that a little texture goes a long way. persianartgallery.com.au

4/ HOT TO TROT

Sunbrella upholstery fabrics combine rich colours, luxurious textures and uncompromising performance. This living room is grounded by a sofa upholstered with a menswear-inspired pattern in an unexpected teal hue. With Sunbrella, style and function are integrated into every textile, with results that are truly breathtaking. sunbrella.com

5/ LIKE A ROLLING STONE

For a dramatic yet timeless look in your kitchen or bathroom, check out Talostone's 9090 Statuario. With a crisp white background and grey veining, Statuario is an engineered stone that looks as elegant as it is practical, and it's strong enough to resist daily wear and tear. The quartz surfaces are the perfect solution for kitchen benchtops, bathroom vanity tops and wall panels, offering countless design possibilities. talostone.com.au

6/ TAPS THAT TURN YOU ON

Finding the right taps for your home can be tricky business. Designed and manufactured in Italy, the Multitap is dripping with style. The Multitap 3N1 dispenses cool water, hot water, as well as steaming hot water from the single kitchen mixer tap, delivering new levels of convenience to the modern kitchen. It comes in three designs and two finishes — Chrome and Matt Black — and will be supported with the newly upgraded Neotank. This 2.5L tank allows the consumer to heat only what they need, while conserving energy for environmental stewardship. Elegant with luxury details, this nifty product will lend style and function to your kitchen experience. insinkerator.com.au

7/ GET THE PARTY STARTED

Artusi has introduced the coldest beverage centre in Australia. Taking quality and functionality to another level, the Outdoor Beverage Centre is designed for today's household entertainer and party enthusiast. The beverage centre is the ultimate party companion that perfectly chills stored beverages at optimal temperature, regardless of the weather outside. With key functions including the Party and Super Cool mode, it is no surprise Artusi has tapped into the summer celebrations with its first bar beverage centre. Beverages can be stored in the beverage centre at temperatures as low as -5°C and can fit up to 190x330mL bottles or 110x500mL bottles at a single time. Long gone are the days when drinks were stored in the Esky with bags of ice. This product solves a major want and need that is functional and stunning to look at. artusi.com.au

9/ MODERN HOMES

Whether building new or renovating, achieve a unique, modern home design with Scyon Walls. Ideal for contemporary styles, from industrial and geometric to abstract and ultra-modern, there's a Scyon Walls design that will suit. Scyon Stria will add a casual element to almost any design and is ideal for highlighting architectural points of interest, or creating internal feature walls. Go industrial with Scyon Matrix and use its panels as a base material for a smooth, sleek finish, or as a geometric grid or staggered layout to create feature walls and highlight architectural forms. Add the feeling of height with the vertical lines of Scyon Axon and get a look that's sharp and uniform, which is perfect for upper-storey and ground-level extensions. Mix the designs to create an architectural-designed look and push boundaries with colour to make a statement home. scyon.com.au
