

# MANY OFFERINGS FROM A SINGLE TAP

Over the centuries, we have marvelled at how Italians have enhanced design and fashion, leaving their cultural mark on the world. We love the passion, craftsmanship and heritage put into everything they do, and now they are the creative drivers behind InSinkErator's premium range of tapware – Multi Rubinetto, also known as Multitap.

Multitap is testament to the Italian commitment to outstanding practice, and InSinkErator is proud to be able to now offer instant steaming hot water as a function of a standard kitchen tap mixer. Designed and manufactured in Italy, this high-quality tap brings contemporary style to new and existing kitchen spaces.

The Multitap 3N1 is supported by

InSinkErator's next-generation Neotank. It features a compact design that is affixed to the cupboard wall, conserving space usage. The 2.5L tank features a welded construction, eliminating seals to improve lifespan. It also allows you to heat only what you need while conserving energy for environmental stewardship.

To help introduce Multitap 3N1 to the Australian market, InSinkErator has partnered with award-winning chef, restaurateur and much-loved TV personality Guy Grossi. "What I love is the convenience of the Multitap," says Guy. "Instant boiling water, combined with the regular hot and cold water, enables me to keep cooking, with what I need always at my fingertips."
